When you do your Needs Assessment you may identify a need for additional items. This could include, for example:

- Scissors
- Adhesive strips or band-aids for minor wound dressing
- Non-allergic adhesive tape
- Disposable aprons
- Forceps or tweezers to remove foreign bodies
- Individually wrapped moist wipes or saline solution
- Plastic bags for waste disposal
- Hand sanitiser

Ideally, these items are stored inside the first aid kit. But if necessary they may be stored separately as long as they are available for use as required.

### Remote Workers

If you have workers in remote or isolated locations, you must provide them with a basic first aid kit (described on the previous page) as well as extra first aid equipment if required.

The figure below shows some extra contents for a remote location.
