

# NAMING OF BUILDINGS POLICY

**Purpose:**

The purpose of this policy is to provide a clear framework for the naming and identification of University Buildings on all Massey University Campuses, or associated with the Massey University brand.

**Background:**

University policies and practices relating to the naming and identification of buildings, facilities and spaces have evolved over time. Generally there is a preference for a building name to remain in place over the building life and that the building name builds upon the history of Massey University. Particular care needs to be exercised when it is proposed that a facility be named after a person or organisation. Such care includes the consideration of the contribution made by the person or organisation.

an outstanding contribution to his or her field of study, and/or that person or organisation  
has made an outstanding contribution to the development
